WORK EXPERIENCE

Software Engineer
Gulzar Soft [10/10/2022 – Current]

City: Gujrat | **Country:** Pakistan

As a Software Engineer in Gulzar Soft my responsibilities are developing robust REST APIs and creating responsive frontends using a diverse tech stack, including MERN Stack, Python Django, JavaScript frameworks, CSS, HTML, Bootstrap, and jQuery. My expertise extends to collaborating closely with teams and stakeholders, ensuring the high availability of mission-critical applications. Adept at troubleshooting, I actively engage with clients, conduct rigorous testing, and address concerns promptly.

Web developer
UpWork [01/01/2024 – Current]

City: Gujrat | **Country:** Pakistan

- I was working on Fiver and now on UpWork as a free lancer with expertise in Web Development using Django RestFramework and MERN Stack technologies.

PROJECTS

[01/09/2021 – 01/09/2022]
Local Developers Developed a web-based delivery platform as my Final Year Project for seamless package management, using React, Node, Express, and PostgreSQL, enabling users to send, bid on, and receive parcels efficiently.

[13/10/2022 – 31/12/2022]
E-Learning G1 Product Led the development of a Django-React e-learning platform with features for course creation, enrollment, and content management, enhancing online education accessibility.
